

CAPABILITY STATEMENT

INSPECTION • SERVICE • REPAIR

ABOUT US

Nelvin Electrical is a locally owned private company operated and run by a Qualified/Registered Electrician with close to 40 years' experience as an Industrial Electrician.

Established in 2015, Nelvin Electrical aims to provide professional quality affordable services to Commercial, Industrial and Residential Customers in South Australia. We aim to extend our services throughout Australia and aspire to expand the business as required and continue growing Australia Wide.

With nearly 40 years of active experience in the Electrical Industry, we have adequate expertise to tackle an extensive range of electrical service requests.

We have adequate experience in Electrical Maintenance and Inspections in Heavy Industrial Sites, Mining, Electrical Power Distribution, Commercial Sites, Production Factories, Power Stations, Wind Farms, Oil Rigs, Large Shopping Malls, Hospitals, Schools, Aged Care Facilities and numerous other sites including residential properties.

As a private business, we can control and keep our overheads extremely low making our charges very competitive and (often) unbeatable in comparison to larger organizations.

As a large part of our work is Inspecting and Maintenance there is no huge capital requirements. This translates into massive savings for our Customers. We attribute the continuing growth throughout the business to our competitive pricing and commitment to customer service excellence

As the company expands we will be creating employment opportunities mainly in South Australia.

It is our vision to have a several operational Teams, servicing our Valued Customers Australia wide.

SERVICES

Services

Nelvin Electrical is capable of providing numerous Electrical Services and Inspections. We are diligent in keeping up with specialized Training to suit Customer requirements. (e.g. Confined Space, working at Heights, Forklift License etc.). We will ensure that all our staff are fully Inducted to the sites they attend. All safety equipment and PPE will be supplied. All staff are instructed to adhere to all safety polices on the sites. Where required staff will also have current Police Clearances.

Our Regular Testing and Inspections include but are not limited to:

Equipment:

Our regularly upgraded technology enables us to provide services to our Customers using up to date modern equipment and programs such as Infra-red FLIR Cameras. AEMC PEL-103 Quality Analyzer and top of the range electrical Test Equipment. All our equipment are well maintained and regularly calibrated to ensure accurate results.

Our reports are clear and easy to understand. Reports can be Customized and Tailored to suit our customers' requirements. We keep our reports Standard, and do not require our customers to purchase unnecessary and expensive software. Reports lose their value if not provided soon after the inspection. We commit provide our customers with reports within five working days (one week) of the inspection date

SAFETY

Safety

Safety at Nelvin Electrical is about more than just compliance. It's our number one priority and is reflected in our excellent safety record.

Our genuine commitment to safety is reflected in our work practices and ethics, which ensure that we meet our obligations to the Occupational Health, Safety and Welfare (OHS&W) Act and our Nelvin Electrical Safety Policy.

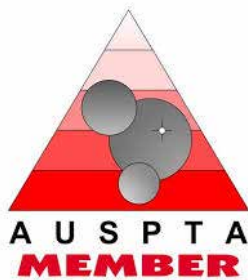

All staff are trained in Low Voltage Rescue and First Aid. Staff are provided with all the required Personnel Protective Equipment (PPE) and follow all safety procedures at all times.

We use all the required PPE on various sites including Safety Arc Suits (40 Cal rated) and low voltage rescue kits.

We ensure that all Staff Licenses and Inductions are kept current.

STANDARD

We adhere strictly to the current AS/NZS 3000 - Australian Wiring Rules and Electrical Standards which provide guidance on electrical installations and wiring standards.

Staff

Nelvin Electrical Staff are all qualified, Registered Electricians. We also train apprentices. As we develop and grow our organization we plan to create employment opportunities in South Australia.

Strengths

Our word to our valued customers is our bond. We aim to meet all your job requirements with honesty and integrity. Our aim is to achieve the highest level of customer satisfaction on every service we provide. Our staff are always punctual and will provide expert advice and efficient service delivery.

We aim to provide accurate professional Reports within a short period after inspections. We work in conjunction with our customers to build a successful and ongoing relationship. At Nelvin Electrical, Customer service is our highest priority, second only to the health and safety of our employees. Our Customers have direct access to management ensuring the provision of quality information and fast and responses when required

STANDARD

Fleet

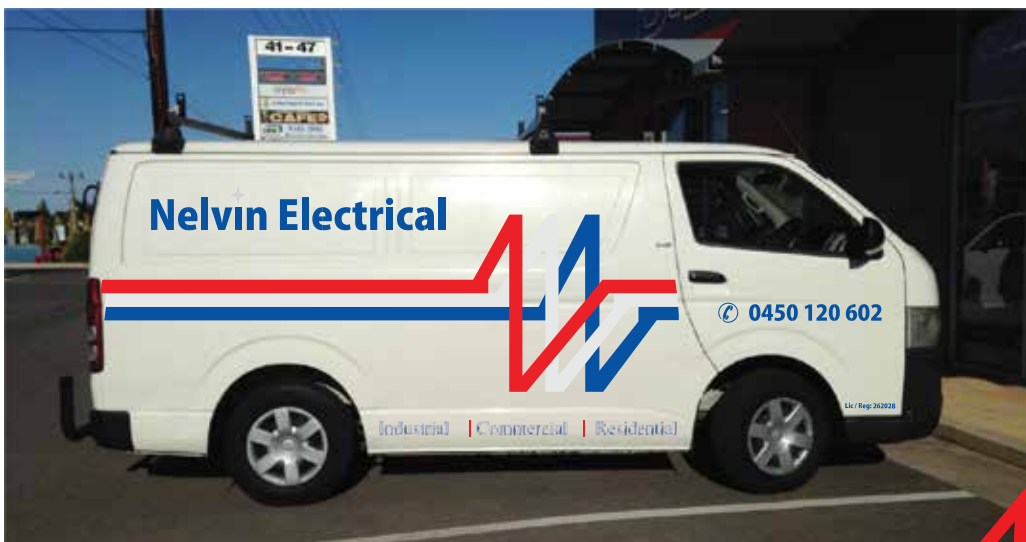

Our vehicles are regularly maintained and serviced. Vehicles are fully equipped and capable of handling reasonable load, so all required test equipment and materials will be available on hand.

Financial capacity

A large section of our work is providing Service and Inspection which requires very little capital outlay so we will be able to fulfil any scheduled work.

Being an Independently and Privately-owned company we operate the business within our means. By Operating in this manor, we have very low overhead expenditure. It is not possible for larger organizations to match our Pricing and provide the same Professional quality work. We aim to give our Customers value for money.

INSURANCE COVERAGE

Nelvin Electrical has Current Public Liability with a renowned Australian Insurance Broker. This will protect our Customers in the event of any Accidental INCIDENT caused by our staff.

If Required, we may be able to adjust Our insurance value to suit Customers.

SUMMARY

In Summary

Nelvin Electrical is a South Australia based private business which provides high standard services at very competitive pricing.

We welcome the opportunity to provide a service that is punctual, competitive in both quality and pricing which will exceed your expectations. Our goal is to build a trustworthy relationship with our Valued Customers. We aspire to remain customer focused and maintain a standard of excellence.

We hope to become your one stop Electrical Service provider
